I OPPOSE THE DRAFT M.O.U being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from the specialized compounding pharmacies.

After trying two years and five different prescriptions I finally was able to find something that worked by having a compounding pharmacy design it for me. The pharmacy is not in my state. This is an essential service which needs to be available to all patients, regardless of state. Thank you for considering the needs of all citizens.
